COVER LETTER

I'm a student at the faculty of Artificial Intelligence at the Egyptian Russian University - ERU.

in addition to, I participate in Egyptian Collegiate Programming Contest (ECPC) as a volunteer.
Hope to participate in Egyptian Collegiate Programming Contest (ECPC) as a Contestant next year isa.
I made a real project (travel agency project) using java programming language with my team.
Also, I learned a web development, yes, I didn't make a real project as a web developer, but I learn it and hope to make this project with my friend (team).
now, I'm leaning machine learning with a passion for making programs that can get new knowledge or skill by simulating learning of human and human intelligence.
I learned Software testing at Udacity site but didn't work in it.
